Koch Signs Set

¶ **Rudolf Koch** was a singularly influential character in Arts and Crafts era GErmany. This set reproduces over 350 of the signs contained in Koch's "The Book of Signs." The symbols include Astrological, Christian, Medieval and Runic iconography. The set now includes a PDF version of the original 'Book of Signs' on CD or for download, plus a new version of Koch famous Neuland font. The "P22 Koch Nueland" features alternate characters designed originally in metal, but lost to subsequent digital versions.
